

Этот список начинался как список известных программистов, затем переросший в перечень самых выдающихся деятелей в сфере информационных технологий. Но вскоре стало ясно, что внимания и почёта заслуживают и многие менее известные, но интересные и достойные люди, без чьего (пусть небольшого, но важного) вклада наша жизнь сегодня была бы совсем другой...

Important, Well-known, Famous, Outstanding, Great IT Persons*

«Народ должен знать своих героев...»

8-)

| G | Person | Achievements | Birthday | ✓ |

Notes:

* Mostly software-related people, perhaps... 8-)

All ♂, except where specially noted as ♀...

Most **outstanding persons** (IMHO) are marked by **bold** font.

Persons from **Russia & USSR** are marked by **red** font.

Persons from old computing era are marked by black font.
 Programming languages are underlined.
 Co-authors are placed in [brackets], + denotes "co-authored".
 Comments are placed in (parentheses).
 Company names are placed in {braces}.
 Hyperlinks are placed in <chevrons>.
 Books & terms are given in «double-quotes».
 @ is a mark for persons awarded with ACM A. M. Turing Award.
 # is a sign for programming language developers.
 † is a sign for deceased persons.

Шадринские программисты
