

*Этот список начинался как список известных программистов, затем переросший в перечень самых выдающихся деятелей в сфере информационных технологий. Но вскоре стало ясно, что внимания и почёта заслуживают и многие менее известные, но интересные и достойные люди, без чьего (пусть небольшого, но важного) вклада наша жизнь сегодня была бы совсем другой...*

**Important, Well-known, Famous, Outstanding, Great IT Persons\***

*«Народ должен знать своих героев...»*

8-)

#### Notes:

\* *Mostly software-related people, perhaps... 8-)*

All ♂, except where specially noted as ♀...

Most **outstanding persons** (IMHO) are marked by **bold** font.

Persons from **Russia & USSR** are marked by **red** font.

Persons from old computing era are marked by **black** font.

Programming languages are underlined.

Co-authors are placed in [brackets], + denotes "co-authored".

Comments are placed in (parentheses).

Company names are placed in {braces}.

Hyperlinks are placed in <chevrons>.

Books & terms are given in «double-quotes».

@ is a mark for persons awarded with ACM A. M. Turing Award.

# is a sign for programming language developers.

† is a sign for deceased persons.

#### Шадринские программисты
